

Restaurant and fast food smoke purification (PUREAOX AIR PRE300)

air flow m3/h	4000-5000
Efficiency	75-95%
pressure drop (Pa)	30
power consumption (w)	200-350
Number of reactors	1-2
Filter type	Active plasma
Maximum humidity (relative)	75%
Applicable filters	UV-Carbon (odor) or Alumina
Base sample weight (kg)	75
- Permanent metal filter with automatic washing capability - Smoke and fat purification
